30 x 70 CM

Entrance Sculpture

-Material : Stainless steel (hair line)
40 , 90 , 110 CM (H)

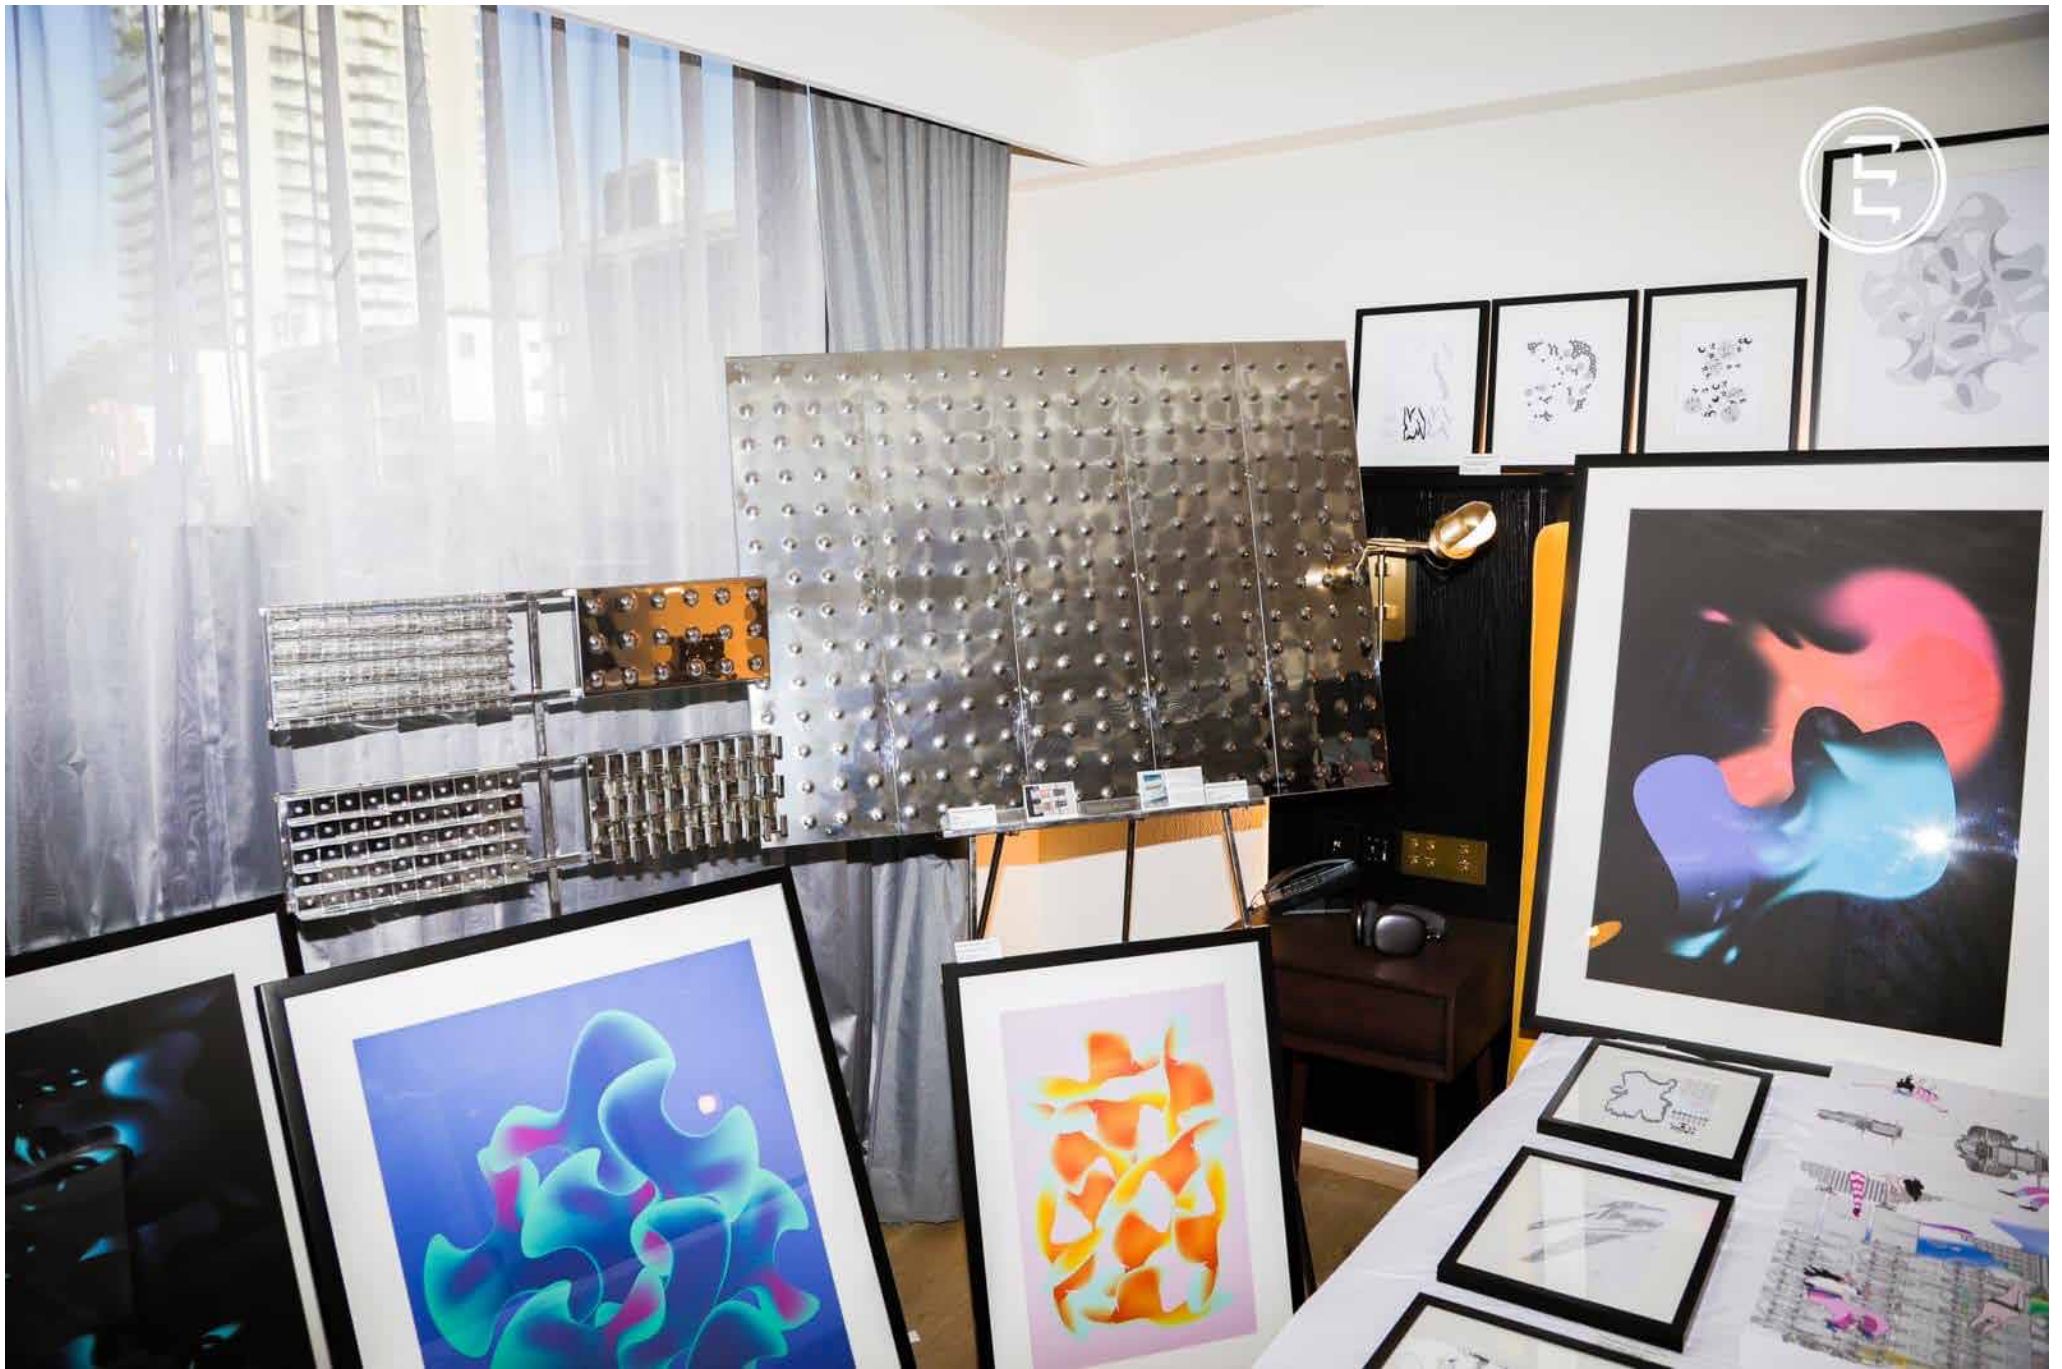

Subcultures emerge in the form of frameworks of thought, attitudes, personal image, and behavior. These subcultures are characterized by individuals who make maximum efforts to attain their desires or expectations. Some people believe that their own efforts are never good enough and fear the possibility of making mistakes. These individuals are commonly referred to as "**Perfectionists.**"

Perfectionists lead lives that prioritize perfection, establishing their own standards by which they measure their actions and outcomes. They exert themselves to the fullest extent until the intended goals are achieved, striving for results that are flawless and satisfactory.

Therefore, it resulted in the creation of a piece of work called "**Perfect**" This artwork features repeating motifs. I encourage everyone to examine which pieces or aspects do not meet their own standards. Once everyone has identified them, I invite you all to share your perspectives on whether the artwork "**Perfect**" truly embodies completeness or not. I would like to invite everyone to ask questions, participate, and explore themselves together.

" SUBTHAI EXHIBITION " at independt studio

Urban Collectibles by @mangoartfestival at @publichousebkk

The 'New Wave' exhibition starring impressive works from 14 emerging artists and explore their visions on 'How can one use creativity to enhance the daily experience of urban life'.

THITIWUT TRAI "TCS Table Lamp"

Work is present "Yourself" in Collaboration with @rentroomofficial Bangkok, Thailand 2023

" Yourself " TCS Table lamp in the interpretation of Thitiwut Trai,Tcreative.Studio is about reflecting on our past, where we may have lost or missed something during our childhood. Iam a child who studied intensely during my childhood,rarely having time to play or even use playground equipment.

Therefore, it led to the creation of the TCS Table Lamp, inspired by playground equipment shapes,combined with the unique style of Tcreative.Studio, using materials such as stainless steel and metal, mixed with a yellow light source to create a warm feeling.

"Chapter 1,2 "

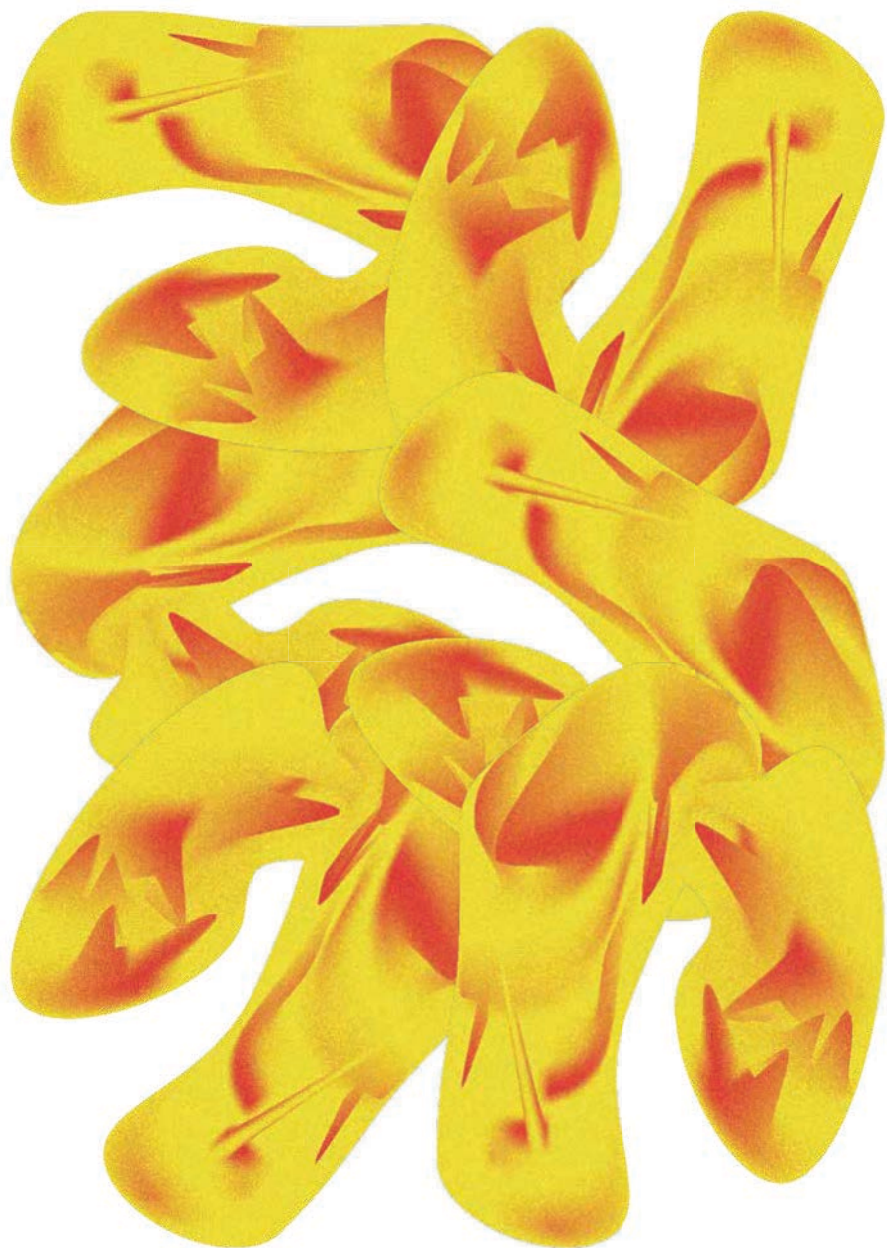

The flower that doesn't exist in reality. Encourages thinking, creativity, and imagination. The imagination that knows no bounds.

The inspiration from studying biology textbooks during school days.

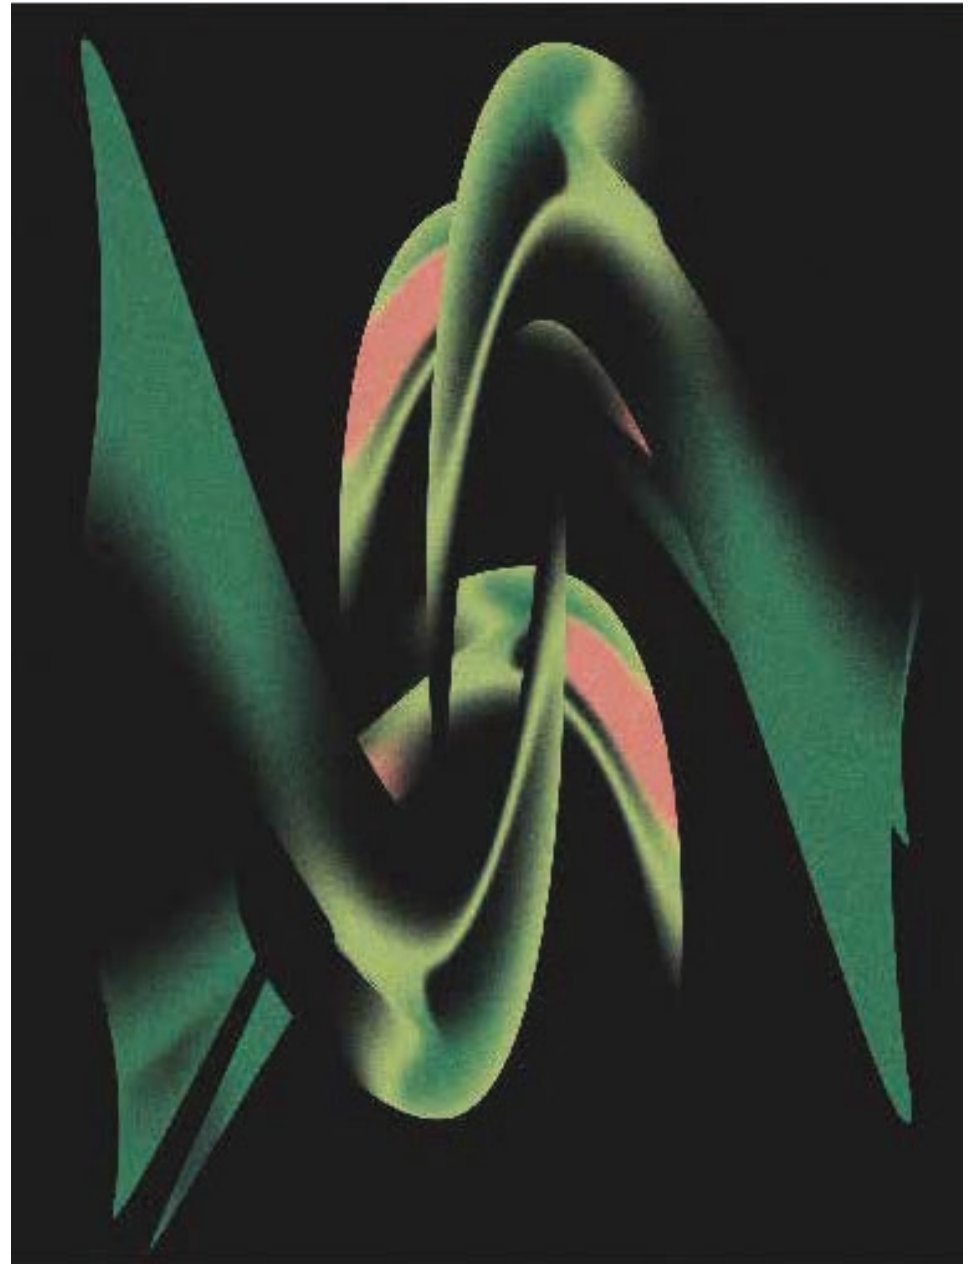

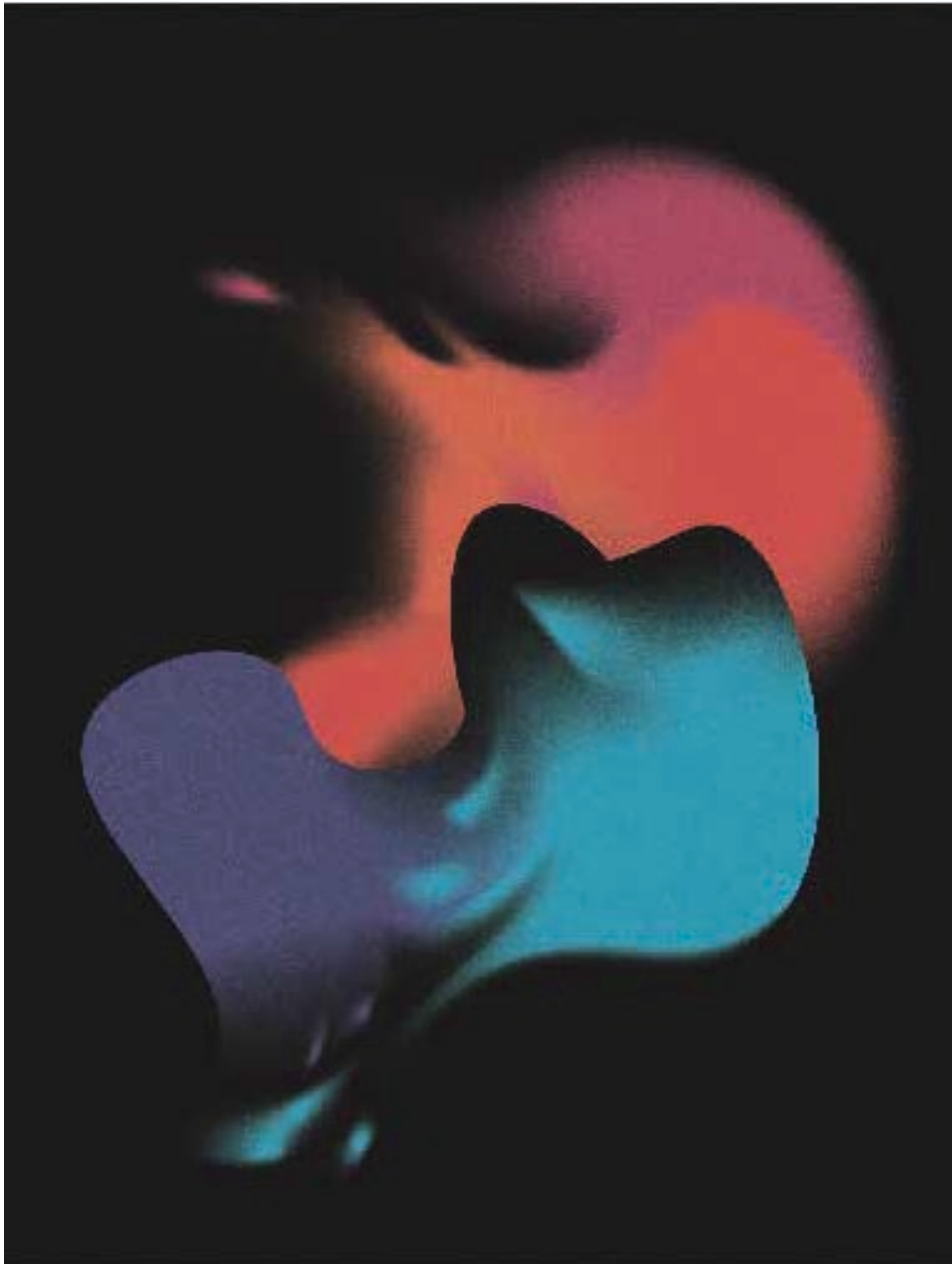

Encourages one to think about unexplored areas on this planet that still remain uncharted. The appearance of the scenery in that area would be like what? Prepared to collect and study plant species for research purposes. Invite everyone to explore this planet together.
